ANNEX 1: SCHEDULE OF REQUIREMENTS**SPECIFICATION****on the tender to procure furnaces and accessories
for Sloviansk Multidisciplinary Regional Center of Vocational Education
named after P.F. Kryvonos of Donetsk Oblast**

Project Name:	UN Recovery and Peacebuilding Programme, Economic Recovery and Restoration of Critical Infrastructure Component.
Description of the Assignment:	Tender of procurement of furnaces and accessories for Sloviansk Multidisciplinary Regional Center of Vocational Education named after P.F. Kryvonos of Donetsk Oblast.
Country	Ukraine, Donetsk Oblast (Government-controlled area)

1. Background:

The ongoing conflict in eastern Ukraine has had a direct and highly negative impact on economy, social cohesion, resilience, livelihoods, community security, and the rule of law. Recognizing the need to urgently address reconstruction, economic recovery and peacebuilding needs in areas affected both directly and indirectly by the conflict, in late 2014 the Government of Ukraine requested technical assistance and financial support from the international community to assess priority recovery needs. In late 2014, the United Nations (UN), the World Bank (WB) and the European Union (EU) conducted a Recovery and Peacebuilding Assessment, which was endorsed by the Cabinet of Ministers in mid-2015.

The United Nations Recovery and Peacebuilding Programme (UN RPP) is being implemented by four United Nations agencies: the United Nations Development Programme (UNDP), the UN Entity for Gender Equality and the Empowerment of Women (UN Women), the United Nations Population Fund (UNFPA) and the Food and Agriculture Organization of the United Nations (FAO).

Twelve international partners support the Programme: the European Union (EU), the European Investment Bank (EIB), the U.S. Embassy in Ukraine, and the governments of Canada, Denmark, Germany, Japan, the Netherlands, Norway, Sweden, Switzerland & the UK.

The RPP has been designed to respond to, and mitigate, the causes and effects of the conflict. It has been based on findings of the Recovery and Peacebuilding Assessment (RPA) and is aligned to the State Target Programme for Recovery as well as to the oblast development strategies up to 2027. It takes into account the opportunities that have arisen from the Minsk Protocol of September 2014 and the renewal of its cease-fire provisions (the latest cease-fire having been agreed in March 2018) and is also fully adjusted to the humanitarian-development nexus. It is an integral component of the UNDP Country Programme and is therefore fully aligned with the United Nations Partnership Framework (UNPF). It is closely interlinked with the Democratic Governance and Reform Programme, operating nationally and in all of Ukraine's regions, and is consistent with the SDGs.

The Programme's interventions are grouped under the following key Programme components, which reflect the region's priority needs:

- Component 1: Economic Recovery and Restoration of Critical Infrastructure
- Component 2: Local Governance and Decentralization Reform

Component 3: Community Security and Social Cohesion.

One of the main objectives of UN RPP is to foster economic revitalization in Eastern Ukraine and, specifically, stimulate employment and economic growth by restoring and strengthening of institutional and educational infrastructure, ensuring increased employment opportunities and development of the labor market necessary for effective functioning of the regional economy.

To implement these tasks UN RPP closely cooperates with VET System at national and regional levels providing support to the Government of Ukraine in reorganization of the VET System across the board.

The VET system is one of the essential institutions to stimulate education and employment and, accordingly, economic growth in the areas affected by the conflict in eastern Ukraine. The VET system requires support in reforming as it possesses significant potential for providing relevant knowledge and expertise not only to the youth but also to the adult population willing to obtain new vocational and professional qualifications demanded by the market. The modernization of the VET system, must include renovation and strengthening of technical and material base of the VET related Training and Methodological Centers and VET institutions as well as significant improvements in student accommodation.

Comprehensive studies of the VET System, held by the Programme, revealed urgent need for support of the System and its institutions, in the form, inter alia, new educational equipment to improve learning conditions and student accommodation.

Strengthening of the material and technical base will allow the VET institutions to improve quality of education and open new professional programmes and to equip graduates with knowledge and skills required by local employers. Improvements in accommodation conditions will attract larger number of students, including those from remote locations and areas along the contact line, as well as elder individuals willing to obtain new professional skills or get requalification to meet the contemporary market requirements.

Altogether, the above planned actions by the UNRPP to provide support to the VET system and its institutions will serve the purpose of raising the prestige of the working professions and revitalizing the local economy in the target Oblasts and areas.

As an additional objective, the winner of the tender, an equipment manufacturer/vendor, will be able to diversify its portfolio of customers and gain/enrich the experience of cooperation with international organizations and increase the company production and sales.

As a part of the support efforts, the Programme is seeking a furnaces and accessories supplier (hereinafter – the Contractor) to supply furnaces and accessories to Sloviansk Multidisciplinary Regional Center of Vocational Education named after P.F. Kryvonos of Donetsk Oblast according to the requested specification.

Dear Partners!

The UN Office in Ukraine kindly informs you, that the purchase of goods and services, announced in the UN Office Tenders, is conducted within the framework of international technical assistance project.

Provisions of the Tax Code of Ukraine (paragraph 197.11) foresee the VAT tax exemption for operations, financed by material and technical assistance.

The procedure for obtaining the tax exemption right for operations, performed in the framework of international technical assistance projects, is regulated by the Decree #153 of the Cabinet of Ministers of Ukraine dated February 15, 2002.

In case you already have the right to apply this VAT allowance, on the date of UNDP prepayment receipt you should prepare and register a tax invoice (hereinafter - TI) in the United Register of Tax Invoices (URTI), filled in as follows:

- the column "Comprised on the operation, exempted from taxation" on the upper left part - with the mark "Without VAT";
- Section A of the TI table section (lines I-X) should contain the summarizing data on TI transactions, namely: line I - the total amount to be paid, including VAT; line IX - the total volume of goods and services delivered. Lines II-VIII of section A are not filled;
- in column 2 of section B – supplier's (seller's) services nomenclature;
- in section 3.3 of section B - service code according to the SCPS. Box 3.3 should be filled in at all stages of the services delivery;
- in columns 4 and 5 - unit of services measurement;
- in column 6 - quantity (volume) of services delivery;
- in column 7 - the price of the service unit supply, excluding VAT;
- in column 8 - VAT rate code 903;
- in column 9 – tax allowance code according to the Handbook of other tax benefits, approved by the SFS as of the date of TI submission - "14060523".
- in column 10 - supply volume, excluding VAT (prepayment amount). Detailed instructions to be found in the materials "Tax invoice - 2017: instruction on filling out" and "New tax invoice in the samples."

Credit against VAT tax, applied on the materials purchase for the relevant construction works performance, cannot be compensated as per the paragraph #198.5 of Tax Code of Ukraine. According to the Tax Code paragraph #198.5, goods and services supply operations, exempted from VAT based on the Tax Code paragraph #197.11, the rules for calculating tax liabilities do not apply.

Using the materials bought with VAT, there is no need to compensate the credit against VAT, as well as no need to accrue tax liabilities.

Considering all mentioned above, you are kindly asked to submit your tender applications / invoices for payment without VAT, referring to the Ukrainian legislation provisions, stated in the mentioned regulatory acts.

Should you have any additional questions, please contact the offices of the State Fiscal Service of Ukraine at the place of your enterprise registration for additional clarifications of Article 52 of the Tax Code of Ukraine.
